

## Records of Library Visitor Registers:

The library currently is managed manually by the librarian and assistant staffs, who maintains the record of the students using the library and they also help the students in searching for books in the library. The requisition for the software SOUL and has been submitted to the concerned authorities and so the automation of the library would be done at the earliest. Further, the institution has a Library Advisory Board cum Management Committee for the upgradation of the college library.

The records of visitors are maintained separately for the students and the faculty members.
